

10th RAID LAPONIE 2004

e-mail infoletter 13.12.03

Hi, raid laponie folks,

The website has been slightly updated again. You can see some short movies (QuickTime) on the front page and the list of participants has some new faces and comments.

Send in your stuff now. We have also opened a FAQ (Frequently Asked Questions) section in the members' area. The password is "sssf" (Secret Society SuperFinns). I think giving information and discussing is very practical through the website as almost all seem to have an email address and access to the web. You can also send emails to all the participants by copying the addresses of this mail.

The website is a creation of Mulkvist&Mulkvist Productions and particularly of Ari "Nalle" Karhu (team 14). Nice work, isn't it. Send your material for the website (almost anything) directly to him <mailto:nalle@citroen-hy.com>.

The beginning of winter has been exceptional (again) in the Southern parts of Finland. Hardly any snow and high temperatures, even +5C. Now it seems to change and we are waiting for a snowstorm to arrive in the Western parts

of Finland this evening and on Sunday it should be snowing all over the country. A few days ago there was a terrible winter storm in Norway with huge waves and unbelievable wind speeds. Most of the roads we should be using were closed with booms. For weather updates for Finland see <http://www.fmi.fi/weather>.

Enquiry Forms are coming in by post every day, have you send out yours? The deadline is 20th December 2003. There are a few teams we have not heard from for a long time, I hope our mails are reaching them.

On the behalf of Raid Laponie Organisation,

Jukka
